SUMMARY

Software Developer and co-owner of study-saga.com, a production platform serving 40,000+ users across web and Discord, with a mobile app in development. I build user-focused software with React, TypeScript and modern web technologies. Currently pursuing a BSc in Computer Science.

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript, Python, C

Frontend & UI: React, HTML5, CSS3, Tailwind CSS, Framer Motion

State, Data & APIs: React Query, Zustand, API Integration

Backend & Services: Convex, Supabase, Clerk, Discord Embedded SDK

Databases: PostgreSQL

Testing & QA: Vitest, Playwright

Tools, Analytics & Deployment: Git, GitHub, Docker, Vercel, PostHog, Sentry, GrowthBook, Cloudflare R2

Additional Technologies: Godot Engine

EXPERIENCE

study-saga.com | [Co-owner & Frontend Developer](#) | *January 2025 - Present | Remote*

Production platform serving 40k+ users across web and Discord, with a mobile app currently in development.

- Built responsive user interfaces with React, TypeScript, Tailwind CSS and Framer Motion.
- Integrated the Discord Embedded App SDK with Clerk authentication, enabling the platform to run as a Discord Activity across web and Discord.
- Designed and implemented real-time collaborative study rooms with live chat, social presence and synchronized group timers using Convex.
- Built gamification features including XP/leveling, quests, virtual currency, in-app shop, referral program and daily rewards.
- Used PostHog, Sentry, GrowthBook and Cloudflare R2 to support analytics, monitoring, feature rollouts and asset delivery.

Customer Service Representative | [CQS - Public Power Corporation Project](#) | *April 2026 - Present | Remote*

- Provide inbound customer service and support for customers of Public Power Corporation (PPC / DEI).
- Record customer interactions accurately and manage customer data in the company's CRM system.

Data Quality Control Specialist | [Archeiothiki - National Cadastre Project](#) | *February 2025 - April 2026 | Thessaloniki, Greece*

- Performed quality control checks on digitized legal and land registry documents.
- Reviewed and verified data entries to identify inconsistencies and improve accuracy.

Sales & Event Operations Coordinator | [Athinakon Luxury Design](#) | *April 2022 - January 2025 | Thessaloniki, Greece*

- Managed client communication, sales discussions and event bookings for high-profile private clients, business owners and public-sector projects.
- Coordinated event planning and execution from initial request to final delivery, ensuring each project followed the agreed plan and quality standards.

Delivery Associate | [Amazon](#) | *June 2019 - March 2020 | Munich, Germany*

- Managed daily delivery routes and completed deliveries in a fast-paced, time-sensitive environment.
- Worked independently while maintaining reliability and a high standard of customer service.

EDUCATION

Bachelor of Computer Science | [Hellenic Open University](#) | *2024 - Present | Patras, Greece*

Foundation Program in Music Technology & Sound Engineering | [AKMI](#) | *2016 - 2018 | Thessaloniki, Greece*
